“As an undergraduate student, the School of Arts and Humanities equipped me to pursue a master’s degree. Because of my undergraduate education at UAM, acceptance into graduate programs was not a problem; however, I chose UAM’s Master of Fine Arts in Creative Writing program because I knew that the curriculum would guide me toward my dreams of becoming a professional writer and a college professor.”

"UAM is more than buildings where I have attended for years; I consider it home. It’s the place where I have gained knowledge, grown as a young woman, and met friends and sorority sisters. Faculty and staff have taken me in like a second set of parents. With the course preparation and life skills I’ve attained at UAM, I know that my goals will become a reality.”

"UAM is a second family to me. Because it is a smaller campus, faculty members know you by name, and they are willing to help you become more successful. The smaller campus also makes it easier to meet other college students who will become life-long friends.”
