Student Affairs Committee: Dr. Fleming reported there are two new clubs on campus: Bicycle Club
and Tai Kwan Do. A motion was made by Dr. Fleming to recommend status as organizational clubs. Motion was unanimously passed.

Dr. Stewart brought consideration to the floor for the distribution of a hard copy of curriculum changes to all faculty before assembly meetings. The purpose was to provide faculty adequate time to look over the new changes and make comments during meetings. It was further proposed that the Assembly Committee would take care of the cost. It was noted that currently there is a hard copy in the library for individuals to review. After a discussion on the floor, Dr. Matthews mentioned that a brief one page summary would be helpful. Dr. Stewart maintained that greater consideration should be given prior to a vote on this matter.

**Assessment Committee:** Dr. Bryant reported that the committee met on October 11, 1999. She mentioned that minutes would be posted on net list in a few days. Dr. Bryant provided a handout explaining committee activities. The handout outlined the duties of the Council on Assessment of Student Academic Achievement (CASAA), recommendations made to the Vice Chancellor for Academic Affairs, Dr. Travis, Fall CAAP exam dates to be held November 9-12, 1999, and UAM participation in a study sponsored by ADHE and ACT.

**Insurance Update:** Mr. Wallace reported the update on insurance. Handouts were distributed for discussion. Many questions were brought up from the floor. The most recent rate increase for UAM employees was effective July 1, 1999. A 7% increase affected all plan choices. In addition, a 3-tier copayment for prescription drugs was implemented. Each December, employees have an option to choose either Classic or Point of Service Plan. Mr. Wallace encouraged employees to use the Cafeteria Plan for tax purposes. Dr. Davis stressed that UAM makes the decisions on what goes into the insurance plan. Qual Choice is our management company. There are a lot of changes going on and Dr. Davis will be going to the Chief Financial Officers meeting to find out more information. No word yet on changes in 2000. Chancellor Taylor, wanted to clarify misconceptions regarding our health insurance. "First of all, we have a 'Cadillac Plan' for our employees. Yes, it is expensive, but a good one. It is becoming more expensive because the drugs (prescriptions) are going up. Premiums are going up and the expenditures are high. The University System of Arkansas formulates a health care plan and once it is
designed, the system hires a company to take care of the plan and, as of now, it is Qual Choice." Dr. Davis discussed the Preferred Drug List. There are three choices; $10 copayment for generic drugs, $20 copayment for formulary preferred brand-name drugs, and $30 copayment for formulary non-preferred drugs. Please make sure to look over the list when your doctor prescribes a drug to make sure it is on the list to give you the benefit. If you have any questions concerning your insurance plan, please ask Ms. Hoover in the personnel office.

**Library Update:** Dr. Dennis Travis, Vice Chancellor for Academic Affairs, reported the library building is on target. The students have increased the use of the electronic data base. The library will be completed in approximately one week. Dr. Travis stated that "it is a beautiful, wonderful, pleasing, functional building." The library dedication will be held at 2:00 p.m. December 12, 1999.

Dr. Stewart commended the library staff for doing a great job.
